

Prepared for **Sherri Haskell** / Coast to Coast Health Insurance Solutions, LLC

Report date: August 08, 2026 | Site: <https://sherrihaskell.com/>

Overview

This report summarizes the technical SEO foundations completed and deployed to <https://sherrihaskell.com/>. These updates help Google discover, understand, and present the site correctly in search results and when pages are shared online.

Improvements Completed

All items below are live in production as of this report.

1. XML Sitemap

Created and deployed a sitemap so Google can discover every public page quickly and accurately.

<https://sherrihaskell.com/sitemap.xml>

Includes homepage, Privacy Policy, and Terms of Use.

2. Robots.txt

Added a robots file that allows crawling and points search engines to the sitemap.

<https://sherrihaskell.com/robots.txt>

Helps Google and Bing find the sitemap automatically.

3. Meta Descriptions

Added unique search-result descriptions for the homepage and legal pages.

Improves how the site appears in Google results and increases click-through clarity.

4. Canonical URLs

Set the preferred URL for each page to prevent duplicate-content confusion.

<https://sherrihaskell.com/>

Canonicals are live on homepage, Privacy Policy, and Terms of Use.

5. Open Graph & Twitter Cards

Added social sharing tags and a branded 1200x630 preview image.

<https://sherrihaskell.com/assets/og-image.jpg>

Links shared on LinkedIn, Facebook, iMessage, and X show a polished preview.

6. Favicons & App Icons

Added browser tab and mobile home-screen icons using the SH brand mark.

<https://sherrihaskell.com/favicon.ico>

Includes favicon.ico, 16/32 PNG icons, and apple-touch-icon.

7. Structured Data (JSON-LD)

Added schema markup identifying Sherri, the website, and the professional service.

Helps Google understand the business entity, credentials, and contact details.

Already Confirmed in Good Shape

- HTTPS enabled with HSTS
- www and http traffic redirect cleanly to <https://sherrihaskell.com/>
- Unique page titles and a clear homepage H1
- Mobile-friendly viewport and responsive layout
- Descriptive alt text on key brand and content images

Recommended Next Steps (Client / Search Console)

These final actions are completed in Google Search Console and usually take a few days to process after submission:

1. Open Google Search Console for the property <https://sherrihaskell.com/>
2. Go to **Sitemaps** and submit: <https://sherrihaskell.com/sitemap.xml>
3. Use **URL Inspection** on the homepage and request indexing if needed
4. Optionally validate enhancements after Google recrawls the site

Status: Complete and deployed • Property: SherriHaskell.com
